

Greeting From Your Administrator,

I know all of you are as anxious as I am to get our Lodge opened back up. With Governor Desantis now letting some business open back up with guidelines they must follow, we are hoping in the near future Moose Lodges will be given the green light. So, we are getting prepared so when the time comes that we can open the doors, we will have all the necessary items that will most likely be required to keep us all safe. We have already purchased and received 1,000 face masks. We have ordered 5 handheld heat thermometers and expect them to be delivered Friday. We got a good deal from a local business, Proof Brewing, who is making a liquid hand sanitizer and we purchased and have at the Lodge, 5 gallons of hand sanitizer. Here is where we need our members help. We need plastic liquid spray bottles to put our hand sanitizer in for use. These containers are in short supply since people have been making their own hand sanitizer. Both push button or trigger sprayers will work fine. For those of you who are picking up dinner tomorrow night at the Lodge drive through, maybe you could drop them off then. For others, I am at the Lodge Monday through Friday. I usually get here around 11 AM. You can call me on my cell @ 509-0490 to make sure I am here if you would like to drop some spray containers off at the Lodge.

Thanks and hope to see ya soon,

Richard Williamson
